John,

I feel similarly so. You're genuinely a good guy. And to reiterate words already said, I really appreciate the hard work you did on my behalf.

I hope we cross paths in the future, and wish you continued success.

david

David:

I really enjoyed meeting you. It was nice to a put a face with the name. I called Mark and he does not have any extra keys. He did say he thought he some cowl plugs. I provided your address to him and ask him to mail them to you if he can locate them. Enjoy your aircraft and thanks for the business.

Regards,

**John Bartelt**
