Subject: Re: Archer

Dear airplane buyers and sellers

I just wanted to tell you about a purchasing experience that I had that involved a Archer III. I was from out of state which I thought would be a nightmare, but John did everything humanly possible to make the purchase and the pick-up transition go smoothly. I never write letters like this but I felt very strongly to let others know that buying an airplane does not have to be a painful experience. Every expectation that I had was exceeded with great professionalism. I would recommend Bartelt aviation to anyone purchasing or selling an airplane.

Sincerely,

G. L. Hailey
