Dear John,

I want to commend you on your services during my recent airplane purchase. Your honesty and ethics were the qualities that "sealed the deal". I have dealt with many brokers and I must say that you are totally opposite of them. You are straight forward and a pleasure to deal with. Even after the sale you and Pete have bent over backwards to ensure my satisfaction. You can bet that when I am ready to upgrade again that you will be the first person that I call. I will also recommend you to anyone buying or selling their aircraft. Again, thank you for conducting this transaction in such a wonderful manner.

Sincerely,

Joey Justice
President
