Subject: Skylane

I was waxing the 182 when I realized that I had not sent you an e-mail. I could not have found a dealership that would have been more helpful and concerned about my needs. You and everyone at Bartelt Aviation helped me with my questions to complete the transaction. I appreciated the calls from Larry Russell to see if the Skylane was performing satisfactorily. We have flown the Skylane to Kansas, Oklahoma, and Arkansas and it performed as advertised. I would recommend Bartelt Aviation to anyone looking for an airplane.

Thank you,
John D. Stewart
